

# Woodlot Opportunity

## Running out of firewood or getting bored with the gym?

Managing your own woodlot can give you a lot more satisfaction than just a full wood shed.

Drummond Estate are at the early stages of working with the [Scottish Woodlot Association](#) to look at leasing out around 8Ha of broadleaved woodland as a woodlot. This well tested arrangement gives the leaseholder the opportunity to manage and work their own woodlot to an agreed management plan for the duration of the lease. The woodlot is located close to Crieff in Perthshire.

Applicants must have all the necessary certification for any equipment (chainsaw etc) that would be used on site.
